

Waste Reduction and Recycling Pathway Step 1

Please check the following box if you met the requirement for Step 1.

- 25% or more of the classrooms at the school are recognized under the Green Star School (GSS) Classroom Certification Program in at least one chosen pathway (waste, energy, water, schoolyard, or transportation), or 25% or more of the student population have participated in the GSS Classroom Certification process that led to their classrooms being certified in at least one pathway **over the past two school years**. Go to www.GreenStarSchools.org for more information about the classroom certification or email us at sustainability@smcgov.org.

List all the classrooms that are certified at your school:
